

Brazos Animal Hospital

Kittens Living Longer, Healthier, Happier

Dr. Jarrett recommends the following for _____:

- * Feline Distemper Vaccine- a series of 2 or 3 shots every 3 weeks
- * Rabies vaccination when 12 weeks old
- * A test for worms today and at the time of the 3rd kitten shot
- * De-worming at least 2 times during the kitten shot series
- * Flea control year round with monthly applications of Revolution
- * Feline Leukemia and Feline AIDS virus test
- * Feline Leukemia and Feline AIDS vaccinations for "at-risk" cats
- * Spay or neuter when pet is 5 months of age
- * Microchip implant for positive identification
- * Pet medical Insurance
